Steam Cooker	ENERGY STAR	\$500		X	\$50	
<b>Overall Total Spiffs</b>					<b>\$</b>	

\* Quality Installation training required.

\*\* Manufacturer or utility training required to receive rebate for condensing or tankless water heaters.

*Improving life with energy*

**NOTE:** For Space Heating incentives installer must have completed utility QI training or provide certification of NATE training. A copy of the certification must be attached. For condensing or tankless water heaters, documentation showing manufacturer or utility training must also be attached.

**NOTE:** Include: 1.) Copies of the signed and dated customer rebate application. 2.) Manual J load calculation (or similar version) for all space heating measures. Nothing will be paid without the correct documentation attached. Spiffs are paid out quarterly.

Important: Please send in applications as they occur rather than holding them till the end of the quarter. Verifications can then be made as received and checks will be processed quarterly. This will speed up your Spiff payment. Thank you.
