

2020 Commercial & Industrial Upstream Incentives Program

Colorado: Distributors of Commercial & Industrial Equipment

This program provides incentives to distributors of commercial food service equipment to lower the price of qualifying energy efficient equipment to customers. Distributors will receive an incentive for all qualifying commercial food service equipment sold to customers.

Brief Description of Project

Provide a description of the equipment that will be purchased.

Pre-approval Checklist

Get your project pre-approved faster by checking off these easy steps.

- Identify energy efficiency opportunities within your organization
- Submit project by email or mail
- Completely fill out application (mandatory)
- Provide in-depth description of existing conditions and proposed project
- Provide manufacturer's equipment cut sheets
- Provide project energy savings calculations (if available)
- Provide project cost detail (if available)
- Provide estimated baseline equipment cost where available
- Make and retain copies for your records
- Send all documents to address on form
(sending application to billing address will delay your rebate)

Rebate Checklist

- Start your project after receiving your pre-approval letter
- Complete project installation
- Attach itemized invoices for equipment and labor, including date of installation
- Attach copy of pre-approval letter
- Make and retain copies of all documents
- Send all documents to address on back of form
(sending application to billing address will delay your rebate)

Mail completed application to:

Black Hills Energy
c/o Self-Direct Custom Program
5301 Limestone Road, Suite 222
Wilmington, DE 19808

Program Goals

- Develop partnerships with distributors to bring energy efficient equipment to the market.
- Educate C&I customers about the benefits of installing energy efficient equipment.
- Demonstrate persistent energy savings and provide other benefits to end-users such as improved health, safety, and comfort.
- Help commercial and industrial customers reduce their electricity bills.

Implementation Strategy

- Establish relationships with commercial food service distributors.
- Provide staff training on the program and benefits of energy efficient equipment.
- Track program performance, including tracking invoices, and review sales data for accuracy and payment to distributors.
- Periodically report progress towards program goals and opportunities for improvement.
