2020 Residential Rebates

Colorado: Residential Natural Gas Customers

Rebate Checklist

Get your rebate check faster by checking off these easy steps before mailing your application form. Incomplete applications may be delayed.

□ Completely fill out application (mandatory)

- ☐ Home energy evaluation completed if applicable (evaluation required prior to insulation and infiltration installation)
- ☐ Attach all receipts (original or copies)
- ☐ Review Terms and Conditions and sign and date application
- ☐ Make and retain copies of all documents and applications
- ☐ Dealer portion completely filled out and signed (application Certification)
- Send all documents to correct address listed on application (sending application to billing address will delay your rebate)

Important

A final itemized invoice for all materials, labor and taxes related to the Rebate Application must be attached. For Envelope Measure Retrofit, a pre-qualifying energy evaluation from Black Hills Energy must also be attached. All equipment must be new. No reconditioned or used equipment would qualify for rebates. Proposals are not considered confirmation of purchase and install and are not accepted.

Verification

The sales receipt indicating date of purchase, dealer/contractor name, manufacturer name and model number of equipment must accompany the rebate application. Incomplete applications will be delayed. Black Hills Energy reserves the right to verify sales receipts and installations. After approval, please allow four to six weeks for delivery of the rebate check.

Tax Information

Rebates may be subject to federal and/or state income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. Black Hills Energy is not responsible for any tax consequences of the rebate program.

Disclaimer

Black Hills Energy does not guarantee that installation of equipment qualifying for rebates will result in reduced energy usage or demand, or in cost savings. The Customer will hold harmless Black Hills Energy and its officers, directors, shareholders, agents, employees, and representatives from all claims, liabilities, fines, interest, costs, expenses, and damages incurred by the Customer, for any damage, injury, death, loss or destruction of any kind to persons or property, to the extent the damage, injury, death, loss or destruction arises out of or is related to the conduct, negligence, willful misconduct, misrepresentation, breach of warranty or other breach of this rebate form on the part of Black Hills Energy.

Terms and Conditions

General Eligibility

- Applicant must be a current Colorado residential natural gas customer of Black Hills Energy.
- Homes less than 5 years old may participate in the Residential New Construction program or apply for furnace and water heater rebates through the Residential Rebates program.
- Purchase and installations must be completed between Jan. 1, 2020 and Dec. 31, 2020. Applications for work done in 2020 must be received by Jan. 31, 2021.
- Rebates are available for equipment and insulation installed in heated living spaces only. Equipment or insulation installed in garages or shops are not eligible for rebates.
- Applications will be processed on a first-come, first-served basis. The program will end when the budget is depleted. Funds are limited.
- This program is subject to regulatory rules and orders. Black Hills Energy reserves the right to change or to end any portion of this program without notice.
- 7. To avoid delay, the dealer invoice returned with your rebate application must include manufacturer, model and serial numbers, efficiency rating and date of installation. Equipment cost, labor and tax must be itemized. Labor charges for self-installed jobs are not eligible for rebates.
- 8. Where applicable, energy efficiency ratings must comply with those listed in the Air-Conditioning, Heating, and Refrigeration Institute (AHRI) directory found at www.ahridirectory.org. All space heating equipment needs to bear the AHRI certified mark. All water heaters must either include AHRI certification or be listed as an ENERGY STAR qualified equipment.
- 9. Checks will be made payable to customer shown on invoice.
- 10. To qualify for the rebate, heating equipment must meet minimum efficiency requirements as listed in this application and Black Hills Energy must provide the main heat source fuel. Heat Pumps are considered main heat source regardless of settings, therefore, no heating or envelope measure rebates would be eligible when a Heat Pump is present.
- 11. Black Hills Energy Residential Evaluation Program is required for eligibility for envelope rebates. Customer may choose to have one of the on-site evaluations or complete, save and print the on-line evaluation found at energy-ready.com or call 888-567-0799 to schedule an on-site evaluation. Home must be at least 5 years old to participate.
- 12. Customers must have a blower door test to confirm the proper installation of infiltration measures prior to submitting the rebate application and those customers receiving the duct sealing incentive must confirm proper sealing with a duct blaster test. Customers who participate in the Level 2 comprehensive evaluation option could have already had these test performed as part of the evaluation.

Qualifying Equipment for Rebates

NATURAL GAS WATER HEATING		
Equipment Type	Efficiency Requirement	Rebate Amount
Standard Storage Gas Water Heater	■ ≥ 0.64 UEF	\$150
Tankless Water Heater	■ ≥ 0.87 UEF	\$400

INNOVATIVE SPACE & WATER HEATING TECHNOLOGIES		
Equipment Type	Efficiency Requirement	Rebate Amount
Integrated Space & Water Heater	 ≥ 95% boiler and new indirect-fired water heater Or ≥ 95% Condensing Combi-Boiler 	\$850
Multi-Zone Thermostats	Individual room temperature control for major occupied rooms	Up to \$100

HIGH-EFFICIENCY NATURAL GAS FORCED AIR FURNACES		
Equipment Type	Efficiency Requirement	Rebate Amount
Furnace	■ ≥ 94% AFUE	\$250
Furnace	■ ≥ 96% AFUE	\$350
Duct repair & sealing package	 ≤ 8 CFM25 per 100 sq. ft. of conditioned space for ducts in unconditioned space. Duct Sealing and R-8 Duct Insulation (Pikes Peak Regional Building Code 2011 - Zone 5) Pre and post duct blaster test required 	70% up to \$200

SETBACK THERMOSTAT		
Equipment Type	Efficiency Requirement	Rebate Amount
Setback Thermostat	 Programmable thermostat; 5-1-1, 5-2 or 7-day (Self-installed) 	Up to \$25
Setback Thermostat	Programmable thermostat; 5-1-1, 5-2 or 7-day (Professionally installed)	Up to \$50
Wi-fi Programmable Thermostat	• Wi-fi	Up to \$100

ENVELOPE MEASURE RETROFIT* (Home energy evaluation is required prior to work being done in order to receive rebates)		
Equipment Type	Efficiency Requirement	Rebate Amount
Insulation (Wall)	■ ≥ R-13 or max fill	\$.50 sq. ft up to \$850
Insulation (Foundation/Basement)	■ ≥ R-15/19	\$.50 sq ft up to \$250
Insulation (Rim and Band Joist)	■ ≥ R-15/19	\$.25 sq ft up to \$250
Infiltration Control (weather-stripping, caulking, etc.)	 Air sealing materials and diagnostic testing (pre and post blower door test required) 	70% of incremental cost, up to \$900

^{*}Home must be at least five years old to be eligible for Envelope Measure rebates. Insulation is for retrofit only, new construction or new additions are not eligible for rebate.

Homes less than five years old may participate in the Residential New Construction program.

Call 888-567-0799 to schedule an evaluation.
