

Electric Vehicle Charger Rebate Application

Colorado Commercial Customers - Level 2 Charger

January 1, 2026 - December 31, 2026

Rebate Checklist

Get your rebate faster by checking off these easy steps before mailing your application form. Complete and accurate application forms mean less delays in getting you your rebate check.

- ☐ E-mail ReadyEV@blackhillsenergy.com to assess your charging needs and schedule an on-site evaluation.
- ☐ Meet Black Hills Energy for a site walk to determine your installation Location and contact a qualified electrician for installation.
- ☐ Review the Terms and Conditions and sign and date the application.
- ☐ Completely fill out application.
- ☐ Attach all receipts for proof of purchase of the smart charger and electrical installation of the equipment.
- ☐ Make and retain copies of all documents and application.
- ☐ Mail the application and all supporting documentation to:
Black Hills Energy
Attn: Electric Vehicle Program
P.O. Box 1400
Rapid City, SD 57709

or e-mail to ReadyEV@blackhillscorp.com

Failure to meet any of the foregoing requirements may result in denial of the rebate.

Eligibility Requirements

To be eligible for the rebate, you must:

1. Be a non-residential Black Hills Energy electric customer with an account in good standing.
2. Agree to install, own, operate, and maintain new electric vehicle charging equipment at your own expense from a qualified network provider approved by Black Hills Energy for a period of at least five (5) years after the installation date for public chargers.
3. Install a separate service line and meter dedicated to electric vehicle charging only. Co-mingled (non-EV charging) usage is not allowed.
4. Have the right to install, own, operate and maintain electric vehicle charging equipment on the site. If you do not own the site, you shall obtain any required approvals from property owners, landlords, and/or corporate offices to install electric vehicle charging equipment and provide written evidence of such approvals to Black Hills Energy upon request.
5. Obtain all necessary permits and comply with all applicable laws, rules, codes, and regulations for the installation of electric vehicle charging equipment.
6. Purchase and install qualifying electric vehicle charging equipment between January 1, 2026 and December 31, 2026 available for employee, tenant, and/or public use. Rebate application must be received by Black Hills Energy on or before December 31, 2026 to qualify for the rebate.
7. Agree to incorporate Black Hills Energy branding, supplied by Black Hills Energy, on all electric vehicle chargers installed under this rebate program.
8. Agree to participate in surveys, on-site audits and review of electric vehicle charger usage data.

Terms and Conditions

Rebate Details

Upon receipt of all documentation and validation of compliance, Black Hills Energy will provide the commercial electric vehicle charger rebate, which consists of a rebate in an amount up to: (1) \$2,000 per Level 2 (240 volt) electric vehicle charging port for commercial or multi-family housing charging sites, (2) \$3,000 per Level 2 (240 volt) electric vehicle charging port for governmental, nonprofit 501(c)(3) charging sites, or multi-family housing where 66% or more residents are considered low-income/ income-qualified. Amount of rebate cannot exceed the electric vehicle charging equipment and installation. You are responsible for paying all tax liability imposed as a result of receiving the commercial electric vehicle charger rebate. The state of Colorado requires charger installation be performed by a licensed master electrician, licensed journeyman electrician, licensed residential wireman, or properly supervised electrical apprentice.

Rebate Availability

Black Hills Energy offers a limited number of rebates paid out on a first come, first served basis. Availability is subject to total number of program participants. Black Hills Energy reserves the right to cancel or modify this rebate program at any time in its sole discretion. Black Hills Energy makes no representations or warranties regarding whether you will or will not qualify to receive the rebate.

Electric Vehicle Charger Usage Data

Usage data provided to Black Hills Energy through Advanced Metering Infrastructure (AMI) may be used internally by Black Hills Energy and may be made available on an aggregated, non-personally identifiable basis to the Colorado State Public Utilities Commission.

Audit Rights

Black Hills Energy reserves the right to select you for an audit to verify the installation of the rebated electric vehicle charging equipment. You hereby consent to such an audit and agree to grant Black Hills Energy access to the property to the extent reasonably necessary to conduct such an audit. If the audit discovers the electric vehicle charging equipment has not been installed in accordance with these terms and conditions, then the rebate award may be rescinded.

Customer Signature & Certification

By signing below, you agree to all terms and conditions.

Release and Indemnification

You agree to release, indemnify, and hold harmless Black Hills Energy, its affiliates, respective officers, directors, shareholders, and employees from and against any and all causes of action, damages, losses, claims, expenses, demands, and costs (including attorneys' fees), resulting from, arising out of, or in any way connected with the electric vehicle charging equipment, rebate, or any taxes associated therewith. Black Hills Energy is not a party to any sales transaction between you and the qualified provider of electric vehicle charging equipment. Black Hills Energy's liability and responsibility in connection with this program shall be strictly limited to the making of certain rebate payments for program-eligible electric vehicle chargers, and Black Hills Energy does not make, will not provide, and specifically disclaims any and all representations, warranties, covenants, or guaranties whatsoever, express or implied, in connection with the electric vehicle charging equipment and the residential electric vehicle charger rebate program itself, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose. Black Hills Energy shall in no way be liable or responsible for any electric vehicle charging equipment installed by, or for any act or omission of, any other entity or individual, including, without limitation, the equipment manufacturer or any electrician, technician, or other service provider.
