The principal purpose of this filing is to increase the EASBC on all applicable rate summary sheets, in compliance with C.R.S. § 40-8.7-105.5(b) and consistent with the EASBC tariffed in Third Revised Sheet No. 50. The EASBC will be billed to all utility customers as shown in Table 1 below:

If permitted to go into effect on October 1, 2024, the tariff proposed herein will result in no change to the annual revenues of BHCG. The tariff will effectively be revenue neutral. All revenues collected by the

<sup>1</sup> The Company understands the temporary rules approved in Proceeding Number 23R-0408EG, Decision No.C23-0538 to require utility filings “that introduces or increases any rate ... shall include a rate trend report” pursuant to Commission Rule 3109 (ee). It is the Company’s interpretation that the instant compliance filing is being made to comply with Decision No. C23-0619-E setting the EASBC to \$0.79 rather than the utility requesting to increase the rate, and therefore does not require a rate trend report.
