The principal purpose of this filing is to increase the EASBC on all applicable rate summary sheets, in compliance with C.R.S. § 40-8.7-105.5(b) and consistent with the EASBC tariffed in Fifth Revised Sheet No. 50. The EASBC will be billed to all utility customers as shown in Table 1 below:

¹ The Company understands the rules approved in Proceeding Number 23R-0408EG, Decision No.C23-0538 to require utility filings "that introduces or increases any rate ... shall include a rate trend report" pursuant to Commission Rule 3109 (ee). It is the Company's interpretation that the instant compliance filing is being made to comply with Decision No. C25-0685 setting the EASBC to \$0.83 rather than the utility requesting to increase the rate, and therefore does not require a rate trend report.
