

2026 Residential Rebates

Colorado: Residential Natural Gas Customers

Rebate Checklist

Get your rebate check faster by checking off these easy steps before mailing your application form. Incomplete applications may be delayed. **Please do not submit applications through multiple methods. If you would like to verify your application has been received, please call the Energy Efficiency line at 1-888-567-0799.**

- Completely fill out application (mandatory)
- Attach all receipts (original or copies)
- Review Terms and Conditions and sign and date application
- Dealer portion (application Certification) completely filled out and signed (if applicable)
- Make and retain copies of all documents and applications
- Send all documents to correct address listed on this application (sending application to the billing address will delay your rebate)

Important

A final itemized invoice or receipt for all materials, labor and taxes related to the Rebate Application must be attached. Black Hills Energy cannot accept quotes, proposals, estimates, or bids as confirmation of purchase. Canceled checks and bank or credit card statements are not considered valid for proof of purchase. All equipment must be new. No reconditioned or used equipment qualifies for rebates. Black Hills Energy is not responsible if your contractor provides inaccurate information about the amount and/or conditions of the actual rebate or equipment eligibility. Incomplete applications will be delayed. Black Hills Energy reserves the right to verify sales receipts and installations. After approval, please allow four to six weeks for delivery of the rebate check.

Tax Information

Rebates may be subject to federal and/or state income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. Black Hills Energy is not responsible for any tax consequences of the rebate program.

Disclaimer

Black Hills Energy does not guarantee that installation of equipment qualifying for rebates will result in reduced energy usage or demand, or in cost savings. The Customer will hold harmless Black Hills Energy and its officers, directors, shareholders, agents, employees, and representatives from all claims, liabilities, fines, interest, costs, expenses, and damages incurred by the Customer, for any damage, injury, death, loss or destruction of any kind to persons or property, to the extent the damage, injury, death, loss or destruction arises out of or is related to the conduct, negligence, willful misconduct, misrepresentation, breach of warranty or other breach of this rebate form on the part of Black Hills Energy.

Terms and Conditions

General Eligibility

1. Applicant must be a current Colorado residential natural gas customer of Black Hills Energy.
2. **Equipment purchase and installation must be completed between January 1, 2026 and Dec. 31, 2026. All applications for work done in 2026 must be received by January 31, 2027.**
3. Rebates are available for equipment and envelope measures (insulation) installed in heated living spaces only. Measures installed for use in garages or shops are not eligible for rebates.
4. Applications will be processed on a first-come, first served basis. The program will end when the budget is depleted. Funds are limited.
5. This program is subject to regulatory rules and orders. Black Hills Energy reserves the right to change or to end any portion of this program without notice.
6. To avoid delay, the contractor invoice returned with your rebate application must include the installation/service address, a detailed description of service(s) provided including the manufacturer, model, and serial numbers for any equipment installed, and the date of installation. Equipment cost, labor and tax must be itemized, and Envelope Measures (insulation and infiltration) must be itemized per area. Labor charges for self-installed jobs are not eligible for rebates.
7. **Unless specified, checks will be made payable to customer shown on invoice.**
8. Where applicable, energy-efficiency ratings must meet minimum efficiency requirements as listed in this application, and must comply with those listed in the Air-Conditioning, Heating, and Refrigeration Institute (AHRI) directory found at www.ahridirectory.org. All space heating equipment needs to bear the AHRI certified mark. All water heaters must either include AHRI certification or be listed as ENERGY STAR qualified equipment.
9. To qualify for the rebate, heating equipment must meet minimum efficiency requirements as listed in this application and Black Hills Energy must provide the main heat source fuel. If Black Hills Energy does not provide the main heat source fuel no heating measure, thermostat, or insulation rebates are eligible.
10. Homes less than 5 years old may participate in the Residential New Construction program or apply for furnace and water heater rebates through the Residential Rebates program.
11. Rebates may not exceed the total cost paid by the customer.
