

2018 Electric Prescriptive Rebate Program

Cheyenne: Commercial/Industrial Customers

Installing energy-efficient technology is a smart way for Commercial and Industrial customers to lower energy bills. Energy-efficient equipment installed in new construction, replacement, or retrofit projects is eligible for rebates. Prescriptive commercial/industrial rebates are available for lighting, lamp, variable frequency drive, motors and other electrical measures.

Rebate checklist

Get your rebate faster by checking off these easy steps before mailing your application form. Complete and accurate application forms mean less delays in getting your rebate check.

(Mandatory)

- Completely fill out application
- Attach supporting documentation (Manufacturer's equipment cut sheets indicating model, efficiency criteria)
- Attach itemized invoice(s) for equipment and labor
- Review Terms and Conditions and sign and date application
- Make and retain copies of all documents and application
- Send dealer portion completely filled out and signed to correct address listed on application

Terms and conditions

General eligibility

1. Participants must be Black Hills Energy commercial/industrial electric customers.
2. **Purchase and installation must be completed between January 1, 2018 and December 31, 2018. Project completion paperwork must be received by January 31, 2019.**
3. This program is subject to regulatory rules and orders, and Black Hills Energy reserves the right to change or to end any portion of this program without notice. All equipment must be new. No reconditioned or used equipment would qualify for rebates.
4. A final, itemized invoice for all materials and labor related to the installation must be attached to this rebate application. Manufacturer's equipment cut sheets must be included. Applications must be completed in full: incomplete or incorrect applications will delay processing and may be returned.
5. Funding for these rebates is limited. Applications will be processed on a first-come, first served basis. Additional information or assistance in completing your rebate application can be obtained by calling **888-454-3312**.
6. The Air Conditioning Heating and Refrigeration Institute's (AHRI) Unitary Directory is used to identify product classification, determine efficiency ratings and confirm matched systems. Non-matched assemblies are not certified by the AHRI and are not eligible for rebate. The AHRI directory may be found at **www.ahridirectory.org**.
7. Rebates will be capped at **\$20,000** per project per account number.
