Total Amount of Spiffs From Above \$ _____

Important Notes

NOTE: For Cooling equipment incentives installer must have completed utility training or provide certification of NATE training. A copy of the certification must be attached.

NOTE: Include: (1). Copies of the signed and dated customer rebate application or copies of the customer invoice, (2). Manual J or D Load Calculation (or similar version) for all cooling measures. No Spiffs will be paid without the correct documentation attached. Homeowners must have received their rebate for the installed equipment for the trade ally to be eligible for the Spiff payment. Spiffs are paid out quarterly.

Important: Please send in applications as they occur rather than holding them till the end of the quarter. Verifications can then be made as received and checks will be processed quarterly. This will speed up your Spiff payment. Submission deadline is Jan. 31st of each year. Applications submitted after that date for the previous year will be denied. Thank you.
