2018 Commercial Rebate Program

Colorado: Commercial and Industrial Electric Customers

Black Hills Energy offers Colorado Commercial and Industrial electric customer rebates for some of the most commonly installed efficiency projects. Follow the checklist below to determine if you are eligible for a rebate and for instructions on how to apply.

If your efficiency upgrade is not on the Qualifying Equipment list, you still may be eligible for a rebate under our Custom or Self-Direct Custom rebate programs. Additional information can be found at www.bheSaveMoney.com.

Rebate Checklist

Determine your eligibility, and receive your rebate check faster, by checking off these easy steps before submitting your application. Incomplete applications may delay payment.

- ☐ **Read** the Terms and Conditions and Commercial Rebate Program Information Sheet to determine if you are eligible for a rebate.
- ☐ **Complete** the application form.
- ☐ **Sign and Date** form (including Dealer's signature and date where applicable).
- ☐ **Attach** the following documentation:
 - Itemized invoice(s) including material and labor costs.
 - Specification sheets for installed equipment.
- ☐ Mail, Fax or Email the application and required documentation to:

Terms And Conditions

- Participant must be a Black Hills Energy commercial or industrial electric customer located in Colorado.
- Projects must be completed between January 1, 2018 and December 31, 2018. Applications for work done must be received by January 31, 2019.
- 3. All rebate applications are reviewed for cost-effectiveness. Total rebate amount per application will be no more than 50% of the total labor, material and equipment costs shown on itemized invoices for qualifying measures. Black Hills Energy reserves the right to adjust equipment or rebate amounts submitted with this application.
- This program is subject to regulatory rules and orders. Black Hills Energy reserves the right to change or to end any portion of this program without notice.
- Rebates calculated to exceed \$50,000 will be evaluated to determine whether the high rebate cost is beneficial to the program. A \$500,000 cap will be imposed per facility or building per program year.
- A final, itemized invoice for all equipment, materials and labor related to
 the installation must be attached to this rebate application. Applications
 must be completed in full. Incomplete or incorrect applications will
 delay processing and may be returned.
- New equipment must be installed on the premises and must not be purchased for resale. Customer must purchase and install the new equipment prior to submitting a rebate application. Used/refurbished/ repaired/rebuilt equipment does not qualify for this rebate.
- Specification sheets must be submitted along with the completed application.
- Funding for these rebates is limited. Applications will be processed on a first-come, first-served basis. Additional information or assistance in completing your rebate application can be obtained by calling 800-426-5784, or on the Black Hills Energy website at www.bheSaveMoney.com.

CHILLERS

HVAC equipment efficiency criteria are based on applicable ARI standards at standard conditions per ARI Standard 550/590-98 using a non-CFC refrigerant. Attach a copy of manufacturer's performance sheet showing Full Load and Integrated Part Load Value (IPLV) efficiencies. Only units that meet BOTH minimum Full Load and IPLV requirements are eligible for rebates. Air-cooled chiller efficiencies shall include condenser fan energy.
