

2021 Residential New Homes Program

Colorado: Electric Residential Builders and Contractors

Black Hills Energy is providing a rebate program for new construction of residential homes. This program is designed to demonstrate persistent energy savings and provide other benefits to end-users such as improved health, safety and comfort. It also encourages energy efficient new construction and will help residential customers reduce their electricity bills.

Terms And Conditions

General Eligibility

1. New home must be in a Black Hills Energy Colorado Electric service territory and have an active Black Hills Energy Electric Residential account number.
2. **Homes must be completed between Jan. 1, 2021 and December 31, 2021. Applications for rebates must be received no later than January 31, 2022.**
3. Applications will be processed on a first-come, first-served basis. The program will end when the budget is depleted. Funds are limited.
4. This program is subject to regulatory rules and orders, and Black Hills Energy reserves the right to change or to end any portion of this program without notice.
5. Under the Plan, rebates are available for single-family homes defined as detached or attached homes, or duplexes or Multi-Family homes defined as up to three units or row houses.

Please choose one of the two following paths:

Attach additional documents as required. Contact Black Hills Energy for details at 888-567-0799.

The Prescriptive Path

Builders select from a menu of prescriptive measures to put together a customized new construction package. **Builders must select one measure from each of the following categories: efficient lighting, HVAC and envelope measures.** There are also optional measures that can be selected for a bonus incentive, including appliances, water heating and smart home measures. Participants will receive a bonus incentive for meeting the requirements of each of the required and optional measure bundles.
