

Add value to your business—and save money at the same time.

Our Small Business Direct Install Program is designed to help your business **be more energy efficient** and save money. When you participate in this program, you'll be eligible for **increased incentives** exclusive to small businesses.

Follow these three steps to savings:

STEP
1

Sign up for your free assessment.

A qualified energy advisor will visit your business and provide you a report of recommended energy efficient upgrades, including available incentives. Complete the participation form found at blackhillsenergy.com/sbdi to get started.

STEP
2

Receive your free direct install.

If your business qualifies, you can obtain free energy saving products, including high efficiency aerators, showerheads, and pre-rinse sprayers. The energy advisor will install these in your business at no cost.

STEP
3

Work with a registered trade ally to make recommended upgrades.

Your Energy Advisor will connect you with a registered trade ally to get started with your recommended upgrades. Trade allies have been trained and will provide you with set pricing.

What types of equipment are eligible for incentives?*

- Air sealing
- Pipe insulation
- Boiler vent damper
- Steam trap replacement
- Boiler tune-up
- Furnace tune-up
- Programmable thermostats
- High efficiency boiler
- High efficiency furnace
- Water heaters
- Boiler reset controls
- Infrared heating system

Does my business qualify?

In order to qualify, your facility must be a natural gas customer in Colorado and less than 25,000 square feet.

Talk to your Energy Advisor about what incentives you may be eligible for.
