

### Don't wait to make energy-saving improvements. Get 0% financing today!

Are you holding off on making energy-saving updates to your business? There's no reason to wait! Qualified business customers can apply for 0% interest financing—up to \$20,000—for projects that improve energy efficiency. The Black Hills Energy Small Business Direct Install (SBDI) Program's financing offering is structured for 12 equal monthly payments, automatically withdrawn from your checking account. Even better, most applications are approved within a week of submittal.

AMOUNT

#### Am I eligible for this offering?

To qualify, you must be eligible for and complete a no-cost energy assessment through the Black Hills Energy SBDI Program. Eligibility for this financing offering is determined through a two-step approval process:

1. There can be no outstanding utility payments pending to Black Hills Energy.
2. The amount of the loan approved is dependent on your credit rating.

Loans under \$1,000 will be processed and approved based on step one review noted above. Loans over \$1,000 will be subject to steps one and two to confirm financing eligibility.

#### How do I apply for financing?

1. Work with your Energy Advisor to select your energy upgrade projects.
2. Work with your Trade Ally to finalize the scope of work and obtain a quote for your project.
3. Submit your Utility Release Form and Financing Application to **BlackHillsSBDIFinancing@Franklinenergy.com**.
4. Once your application is received, our partner, Franklin Energy, will conduct a quick eligibility check.
5. If approved, you'll receive a Financing Agreement. Complete and submit it to **BlackHillsSBDIFinancing@Franklinenergy.com**.
