

# 2024 RESIDENTIAL REBATE APPLICATION

## CHEYENNE ELECTRIC: RESIDENTIAL CUSTOMERS

### COOLING AND APPLIANCE REPLACEMENT

## Rebate Checklist

Get your rebate check faster by checking off these easy steps before mailing your application form. Incomplete or inaccurate applications may be delayed.

- Application completely filled out
- All receipts attached (original or copies)
- Reviewed Terms and Conditions and signed and dated application
- Make copies of all documents and application for your records
- Dealer portion completely filled out and signed (if applicable)
- Send all documents to correct address listed on application

## Important

A final itemized invoice for all materials, labor and taxes related to the Rebate Application must be attached. Proposals and/or bids are not considered confirmation of purchase and install.

## Verification

The sales receipt indicating date of purchase, dealer/contractor name, manufacturer name, model number and serial number of equipment must accompany the rebate application. Incomplete applications will be delayed. Black Hills Energy reserves the right to verify sales receipts and installations. After approval, please allow four to six weeks for delivery of the rebate check.

## Tax Information

Rebates may be subject to federal and/or state income tax reporting. Applicant is responsible for contacting a qualified tax advisor to determine tax liability. Black Hills Energy is not responsible for any tax consequences of the rebate program.

## Disclaimer

Black Hills Energy does not guarantee that installation of equipment qualifying for rebates will result in reduced energy usage or demand, or in cost savings. The Customer will hold harmless Black Hills Energy and its officers, directors, shareholders, agents, employees, and representatives from all claims, liabilities, fines, interest, costs, expenses, and damages incurred by the Customer, for any damage, injury, death, loss or destruction of any kind to persons or property, to the extent the damage, injury, death, loss or destruction arises out of or is related to the conduct, negligence, willful misconduct, misrepresentation, breach of warranty or other breach of this rebate form on the part of Black Hills Energy.

## Terms and Conditions

### General Eligibility

1. Applicant must be a current Black Hills Energy electric residential customer to participate in energy efficiency program.
2. **Purchase and installation must be completed between January 1, 2024 and December 31, 2024. Project completion paperwork must be received by January 31, 2025.**
3. Applications will be processed on a first-come, first-served basis. The program will end when the budget is depleted. Funds are limited.
4. This program is subject to regulatory rules and orders, and Black Hills Energy reserves the right to change or to end any portion of this program without notice. All equipment must be new. No reconditioned or used equipment would qualify for rebates.
5. To avoid delay, the invoice submitted with your application must include: Dealer/contractor name and address, date of purchase/installation, address where equipment was installed, and an itemized description of the installed equipment including manufacturer, and model and serial numbers. Equipment cost, labor and tax must be itemized. The rebate cannot exceed amount paid for item(s). Labor charges for self installed jobs are not eligible for rebates.
6. **Checks will be made payable to customer shown on invoice.**
7. To qualify for the rebate, cooling equipment must meet minimum efficiency requirements as listed in this application and Black Hills Energy must be the energy provider.
8. Where applicable, energy-efficiency ratings must comply with those listed in the Air-Conditioning, Heating, and Refrigeration Institute (AHRI). For Central Air Conditioners the AHRI's Unitary Directory is used to identify product classification, determine efficiency ratings and confirm matched systems. Non-matched assemblies are not certified by the AHRI and are not eligible for rebate. The AHRI directory may be found at [www.ahridirectory.org](http://www.ahridirectory.org).
9. Customer must select an Air Conditioning system with an over all efficiency as listed under Qualifying Equipment for Rebates. The system must be matched, which means the outdoor condenser unit and the indoor evaporator coil were designed by the manufacturer to work together to provide top performance and maximum efficiency. The use of a furnace's variable speed fan to increase the SEER rating above the nominal rating will be allowed for determining rebate eligibility provided the Furnace was purchased no more than one year prior to the installation of the new Air Conditioning system. The over all furnace and air conditioning rating must be found in the AHRI directory.

## Qualifying Equipment for Rebates

HIGH-EFFICIENCY COOLING (Must have active Black Hills Energy electric account to be eligible)		
MEASURE	QUALIFYING EQUIPMENT	REBATE AMOUNT
Central Air Conditioners	■ ≥ 15 SEER	\$350
Air Source Heat Pumps	■ N/A	\$350
Furnace Blower Motor	■ N/A	\$160 per unit
Room Air Conditioners	■ ≥ 11 CEER	\$25
Heat Pump Ductless Mini Split	■ N/A	\$200 per unit
Packaged Terminal Heat Pump	■ N/A	\$350 per unit
High Efficiency Evaporative Coolers	■ > 2,500 CFM	\$100 per unit
	■ Media Saturation > 85%	\$200 per unit
	■ Whole House Cooler, Media Saturation > 85%, and minimum of 4 supply ducts	\$800 per unit

CONSUMER PRODUCTS (Must have active Black Hills Energy electric account to be eligible)
